Comments from Attendees from Leaders Training

“Even if a girl isn’t planning on starting a Bright Lights group, it is still very good to hear all the sessions. I enjoyed them a lot. I’m excited about applying these things at home, especially brothers/sisters, honoring parents, and home ministry. ”

“This conference was such an encouragement to me and has really encouraged me to start a Bright Lights group for younger girls. I really learned many new ideas and principles of ministry.”

“This week was awesome in the sessions, etc. It was great getting practical advice on how to start a group. ”

“This has been a wonderful training time! It’s been very helpful! I need to go home and start being a Bright Light myself. I’ve found myself lacking in many areas. ”

“I feel much more equipped to start a group.”

“Outstanding! I really appreciate you doing everything you can to insure our success.”

“This week I was convicted about my need to evangelize, and I’m very excited to go share my faith! ”

“The sessions were so helpful and inspiring.”

“I wasn’t seriously planning on starting my own Bright Lights group when I attended the Bright Lights Leaders Training last October. My main reason for going was that I desperately wanted to meet other like minded young ladies and receive encouragement from fellowshiping with them. I did meet many godly girls who were of great encouragement that week, and continue to be so even now. As the Training continued however, I began to get excited about the possibility of having my own group. After praying about it, I started my Bright Lights that next month. Three girls came to the first one, and now 39 meetings later, about 15 regularly attend. They all seem to really enjoy it (as do I!) and I pray that God is using it in their lives.”
